### Descrizione

The advent of manufacturing with carbon fibre has opened up all a whole range of opportunities in a variety of markets, from Formula 1 to fishing. The benefits over other materials are vast, lighter, and stronger, more temperature tolerant and malleable, carbon fibre brings a whole new dimension to high performance products. It's with this spirit of innovation that has led us to bring the world's first ever carbon frame seat box to market – The Z36 Elite Carbon. Manufactured from a high modulus carbon, the frame is visually stunning due to the seamless rounded design. Designed, developed and tested in the UK each frame is built and finished almost exclusively by hand, in a dedicated production facility, to ensure it meets its unmistakable look. The Z36 Elite Carbon is also supplied 36mm diameter legs that ensures the box offers the ultimate in stability.

Standard package includes:

- 1 x Shallow drawer unit
- 1 x Deep drawer unit
- 1 x Shallow tray unit
- 1 x Stacker lid with carry handle
- 1 x Padded carry strap
- 1 x Seat box Cover
